Graphics Programming Knights

Fall 2025 Kickoff
GBM + Workshop

What's GPK?

- Graphics Programming Knights (GPK), is an upcoming student-run organization with the goal of growing a community at UCF for students interested in everything graphics programming.
- This includes topics such as rendering, shaders [more on that later :)], creative coding, math for graphics, and more!
- From complete beginners, to experienced developers, we want you to be able to find your place in GPK!

The Officers

Alex Da Vera Cruz
President

Alejandro Jaimes
Vice President

Sebastian Noel
Secretary

The Officers

Aden Thompson
Treasurer

Eric Nortmann
Outreach Lead

Luciana Lazo
Workshop Director

GPK Events

Workshops

Get hands-on with the building blocks of graphics programming. Our workshops will cover key topics in the field and are designed to teach you everything from concepts to code.

Industry Speakers

Listen to the professionals who will share their career journey, technical insights, and advice for you to break into the industry. Learn from their experience and get your questions answered.

Team Projects

Go beyond the classroom and build something incredible! Work on a project in a team environment to learn and apply your skills while gaining practical experience.

Workshop Hosting

Form coming soon! :)

If you are interested in hosting a workshop of your own as part of GPK, please look out for an announcement in the near future where you can sign up! You will have the freedom to teach others about something you are passionate about!

We also plan on collaborating with other organizations at UCF for workshops and other events. If you are part of one of these, please message an officer so we can get something in the works!

Follow our Socials!

- Stay up to date on our events by following our Instagram!
- Rewatch GPK meetings at your own pace when published on YouTube!

Thank You

GPK’s First GBM is Over!
The First Workshop... Starts Now!
